

Health prediction with AI

Dear Patient,

As images of your blood sample are being added to our AI to be analysed, we would like to inform you of your rights. As your well-being is our highest good, we prefer the revision of the Federal Act on Data Protection regarding your rights and grant you the following:

Right to erasure, Art. 5 para. 4 revFADP

After having processed your data for the purpose of disease prediction, you will be able to choose:

- ☐ The **deletion** of your data, or
- ☐ The **anonymisation** of it for the further development of our AI.

Right to Information, revFADP 17 f.

You will be informed about the acquisition of your personal data. In addition, you will receive any information that is necessary to enforce your rights under the revision of the Federal Act on Data Protection.

Right of access, revFADP 23 f.

You are entitled to request information free of charge about whether personal data about you is being processed. You will then receive all the information you need to enforce your rights and ensure transparent data processing.

Especially in the case of health data, the communication of your data must be made by a health professional designated by you.

Right to rectification of data and violation of personal rights, Art. 28 revFADP

As we are obliged to process only complete and correct data, you have the right to rectify your data. You can exercise this right by means of art. 28 revFADP.

If you have the feeling that your personal rights have been violated in the sense of Art. 28 of the Federal Civil Code, you can also assert this in the sense of this article.

I, _____, born _____ have been fully informed of my rights as a data subject and consent to the images of my blood samples being used for the purpose of disease prediction.
